

HFMA's Annual Patient Financial Services Program.

The February program will feature Day Egusquiza one of National HFMA's most requested speakers.

Day Egusquiza

Presenting

“Internal Auditing of the Revenue Cycle”

Thursday, February 10, 2005
8 a.m. @ the Hilton South

Her presentation will focus on how to conduct a revenue cycle audit in order to identify what is broken and then work aggressively to prevent repeat problems.

The program will also address how to identify owners and create ownership roles in the process so that the audit program is a success.

If you've ever attended a session presented by Day Egusquiza, you're familiar with her fast-paced, fact-filled style. You're also familiar with the writer's cramp which sets in about 10 minutes into her session from furious note-taking.

Don't forget to mark your calendars for this event!
